EDUCATION

University of Miami

Coral Gables, FL

Master of Science in Business Analytics

May 2026

- **Relevant Coursework:** Database Management Systems, Data Acquisition & Preparation, Dashboard Visualization, Statistical Analysis with Python, Regression Analysis, Forecasting, Machine Learning

Florida State University

Tallahassee, FL

Bachelor of Science in Finance

May 2025

- **Relevant Coursework:** Business Analytics, Financial Modeling, Corporate Finance, Investments, Portfolio Management, Financial Statement Analysis

EXPERIENCE

Financial Analyst

Jan 2024 – Present

Bridgelight LLC

Miami, FL

- Built **driver-based**, scenario-ready **budgeting/forecasting models** in Excel (Power Query, PivotTables, XLOOKUP, data tables) to project revenue, expenses, and profitability; streamlined planning cycles.
- Supported dashboard design and reporting accuracy by validating source data, clarifying metric logic, and confirming key performance data was pulling correctly.
- Performed **variance analysis** (actual vs. budget) on **\$500K+** across cost centers, isolating revenue and cost drivers to support business performance reviews.

Data Intelligence Intern

February 2026 – May 2026

City National Bank (Graduate Capstone)

Miami, FL

- Developed and enhanced Power BI dashboards by building DAX measures, KPI calculations, and interactive reporting views to support operational and financial decision-making.
- Transformed and optimized datasets in Power Query by identifying redundant or low-value fields and collaborating with leadership to streamline reporting structures and improve dashboard performance.
- Designed visualizations highlighting performance trends, utilization metrics, and operational variances to improve visibility into key business drivers.

Business Analyst Intern

June 2023 – July 2023

Costa Farms

Miami, FL

- Integrated Excel models across 8+ macro categories with supply chain analysts to validate and reconcile large datasets.
- Built a YoY Power BI dashboard (DAX KPIs, trend views) highlighting top-/bottom-5 macro/micro performers.
- Mapped fertilizer sourcing/pricing; surfaced ~3–5% savings and standardized reporting; trained sales leadership.

PROJECTS

Event Ticketing SQL Database

Spring 2026

Database Management Systems

SQL, ERD, Relational Database Design

- Built a normalized SQL ticketing database with ERD, constraints, and analytical queries for revenue, inventory, attendance, transfers, and customer segmentation.

AI Resume Matcher

Spring 2026

Large Language Models

Python, OpenAI API, GPT-4o, JSON

- Built an AI resume-matching tool using LLM workflows, OpenAI API integration, PDF extraction, KPI-style scoring, and structured outputs to evaluate resume-job fit, skill gaps, ATS keywords, and recommendations.

SKILLS

Technical: Excel, Power BI, Tableau, SQL, Power Query, DAX, Python, R, DBeaver, QuickBooks, Microsoft 365

Analytics: KPI Reporting, Dashboard Development, Data Transformation, Forecasting, Variance Analysis, Data Modeling, Business Intelligence
